Migration cost

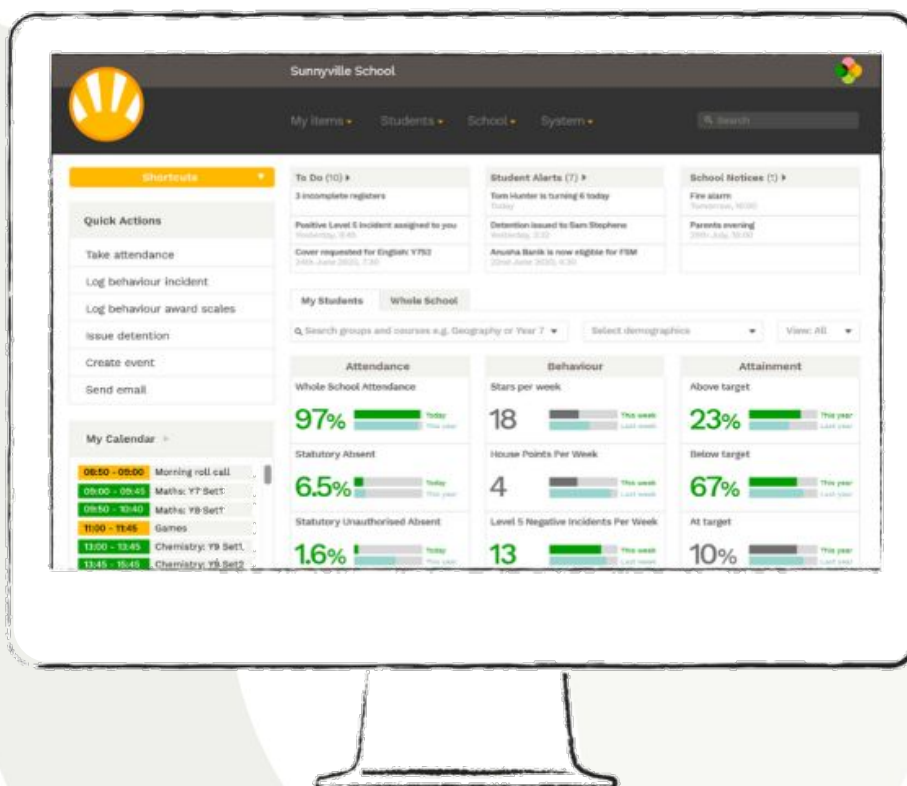

All of our migrations have schools Census-ready from day 1. For secondary schools, your migration includes two practice runs and data cleaning to help make sure your larger dataset is accurate. Migration timelines will depend on your package and support team - please get in touch for details.

Standard migrations	Primary schools	Free!
	Secondary schools	£1,500
Specialised/ 'from scratch' migrations	New schools	£1,000
	Manual migrations (e.g. from spreadsheets)	£1,500

All of the licence pricing in this document has a special discount off our normal rates built into it, because all of your **front line support** will be provided by the accredited local North Yorkshire team. The support for Arbor is covered under either the **Software and Infrastructure including MIS support contract** or **MIS Only support contract** purchased through SLA Online.

The North Yorkshire CC MIS Team and Arbor also offer a range of pre and post implementation **training sessions** as well as recommended **project management** for secondary schools - please contact the MIS or Arbor team to discuss your requirements.
